9. (canceled) An apparatus to prevent chafing and staining comprising:
a shaped liner which is sufficiently thin to prevent any appearance of a user actually wearing panties;
said liner having limited absorbent properties, not intended to absorb more than mere surface moisture from a person's vaginal and anal orifice; and
a bonding mechanism on the undercarriage of the liner to be removably attached to the user's clothing.
10. (canceled) A panty line free undergarment apparatus comprising:
a shaped flexible absorbent material covering the orifices of the user;
a bonding mechanism on the underside of the undergarment intended to adhere to the interior of the user's garment;
thinly formed to prevent any appearance of lines through the user's clothing.
11. (canceled) An apparatus as in claim 10, wherein the bonding mechanism is an adhesive.
12. (canceled) An apparatus as in claim 10, wherein the bonding mechanism is at least one hook and loop fastener.
13. (canceled) An apparatus as in claim 10, wherein the bonding mechanism is at least one pair of clips.
14. (canceled) An apparatus as in claim 10, wherein the bonding mechanism are buttons.
15. (canceled) An apparatus as in claim 10, wherein the liner is shaped as a heart.
16. (canceled) An apparatus as in claim 10, wherein the liner is shaped as a butterfly.

17. (canceled) An apparatus as in claim 10, wherein the undergarment provides the appearance that the user is not wearing any undergarments.

18. (canceled) An apparatus as in claim 10, wherein fragrance is infused into the undergarment.

19. (canceled) A panty line free undergarment apparatus comprising:
a shaped flexible absorbent material covering the orifices of the user;
a bonding mechanism on the underside of the undergarment intended to adhere to the interior of the user's garment;
said undergarment thinly formed to prevent any appearance of lines through the user's clothing; and
an infusion of fragrance within said undergarment.

20. (canceled) A panty line free undergarment apparatus comprising:
a shaped flexible absorbent material covering the orifices of the user;
a bonding mechanism on the underside of the undergarment intended to adhere to the interior of the user's garment;
said undergarment thinly formed to prevent any appearance of lines through the user's clothing, but nevertheless allows for some absorbency of body moisture and residual excretions; and
an infusion of fragrance within the undergarment.

21. (canceled) A panty line free undergarment apparatus comprising:
a shaped flexible absorbent material covering the orifices of the user;
a bonding mechanism on the underside of the undergarment intended to adhere to the interior of the user's garment;
said undergarment provides the appearance that the user is not wearing any undergarments; and

an infusion of fragrance within the undergarment.

22. (canceled) A panty line free undergarment apparatus comprising:
a shaped flexible absorbent material covering the orifices of the user;
a bonding mechanism on the underside of the undergarment intended to be
removably adhered to the user's skin;
said undergarment thinly formed to prevent any appearance of lines through the
user's clothing.

23. (canceled) A panty line free undergarment apparatus comprising:
a shaped flexible absorbent material covering the orifices of the user;
a bonding mechanism on the underside of the undergarment intended to be
removably adhered to the user's skin;
thinly formed to prevent any appearance of lines through the user's clothing; and
an infusion of fragrance within the undergarment.

24. (canceled) A panty line free undergarment apparatus comprising:
a shaped flexible absorbent material covering the orifices of the user;
a bonding mechanism on the underside of the undergarment intended to adhere
to be removably adhered to the user's skin;
thinly formed to prevent any appearance of lines through the user's clothing, but
nevertheless allows for some absorbency of body moisture and residual
excretions; and
an infusion of fragrance within the undergarment.

25. (canceled) A disposable panty line free undergarment apparatus comprising:
a shaped flexible absorbent material covering the orifices of the user;
a bonding mechanism on the underside of the undergarment intended to adhere
to be removably adhered to the user's skin;

the undergarment provides the appearance that the user is not wearing any undergarments; and
an infusion of fragrance within the undergarment.

26. (canceled) A disposable panty line free undergarment apparatus comprising:
a shaped flexible absorbent material covering the orifices of the user;
an bonding mechanism on the underside of the undergarment intended to adhere to the interior of the user's garment;
the undergarment provides the appearance that the user is not wearing any undergarments; and
an infusion of fragrance within the undergarment.

27. (canceled) A disposable panty line free undergarment apparatus comprising:
a shaped flexible absorbent material covering the orifices of the user;
a bonding mechanism on the underside of the undergarment intended to be removably adhered to the user's skin;
thinly formed to prevent any appearance of lines through the user's clothing.

28. (canceled) A disposable panty line free undergarment apparatus comprising:
a shaped flexible absorbent material covering the orifices of the user;
a bonding mechanism on the underside of the undergarment intended to be removably adhered to the user's skin;
thinly formed to prevent any appearance of lines through the user's clothing; and
an infusion of fragrance within the undergarment.

29. (Currently amended) A panty line free undergarment apparatus comprising:
a thin absorbent pad ~~having~~ being mounted upon an elongated thin, stretch fabric strap;
said thin absorbent pad having a thickness up to 1 mm;

an said elongated thin, stretch fabric strap being of substantially uniform width over a whole length thereof, said pad being mounted upon an elongated thin, stretch fabric strap by an adhesive on a central portion of, and on one side of, said strap;

said stretch fabric strap having a removable adhesive patch on a front end and a further removable adhesive patch on a rear end thereof for attaching said strap to the skin of a user so that said pad covers a lower orifice of said user;

respective undersides of each adhesive patch having a nonallergenic adhesive covered by a release liner which is removed prior to attachment to the skin of the user; and

said thin strap and thin pad presenting no visible appearance of lines through the user's clothing; and wherein

said thin pad allowing some absorbency of body moisture and residual excretions.

30. (previously presented) The disposable panty line free undergarment apparatus as in Claim 29 further comprising:

an infusion of fragrance within the undergarment apparatus.

31. (previously presented) The disposable panty line free undergarment apparatus of Claim 29 in which said pad is disposable and said strap is washable and reusable.
